Profiles of Transportation and Aging

James D. Stowe, PhD

Washington University Neuroscience Driving Laboratory
Dr. David Carr – Principal Investigator
Disclosures

• Grants: Missouri Department of Transportation; State Farm
• Speaking: Trauma Center Association of America
Missouri Census Data Center (MCDC) and Office of Administration (MoOA)
Driving Now Safer for Older Adults
Driving Retirement
Prolong Safe Driving vs Retire and Embrace
Innovation – Prolonging Safe Driving
What do you drive?
In the lab

- Brain Profiling
- Targeted Intervention
WHEN TO BE CONCERNED

- When a new condition is diagnosed...
  - Especially, for certain conditions like dementia
  - Especially, if other conditions are present
  - Especially, during advanced older age
  - Especially, if any condition(s) result in great limitations or restrictions to everyday living
Retire and Embrace
Alternatives

Luciano Bernardi
Rural Opportunity

Timothy Collins
State Reporting

- Everyone (Driver Condition Report – 4319)
- Health Care (Physician Statement – 1528)
Coordination and Mobility Management
